

Physiotherapist Job Advert

Are you tired of being overworked, leading to an unsustainable work life balance for yourself and/or your family? Has this led to a lack of respect and value in the workplace that you are craving, that has left you working in a fragmented team? Are you craving the flexibility and variety to treat a multitude of client issues? If that sounds like you then read on...

Do you believe yourself to be a world class clinician, frustrated with lack of innovation and looking for a new place to call home, where you'll be appreciated for your effort and given the autonomy to grow not only as an employee but also as an individual. If so, lets jump on a call and get the conversation started about joining the Chiltern Physiotherapy team.

We have full-time and part time positions based in our Chorleywood clinic in Hertfordshire (we are 2 mins walk from a Metropolitan line tube station).

Perhaps in your current role you are tired of not being able to give the personal, dedicated treatment you want – or indeed what the patient actually needs? It may feel more like a clinical conveyor belt of people coming through the door and straight out again. At Chiltern Physiotherapy we build relationships and long-term connections with people that last a lifetime rather than 10 minutes.

WHO WE ARE

We're a private clinic located in Chorleywood, Hertfordshire (2 mins walk from a Metropolitan line tube station) with 5 treatment rooms, a private members gym and a studio hosting 20+ exercise classes per week.

Chiltern Physiotherapy started in 2008 built on Nicky & Paul's (the founders) belief that physiotherapy isn't just physiotherapy. They wanted to build a unique place where clients become friends and stay with us for more than just the care. We have some clients that attended our very first Pilates class in 2008 and still with us today.

WHAT WE DO

As a company we pride ourselves on delivering exceptional patient care, as well as giving our physiotherapists plenty of opportunities and openings to develop their clinical skills and further their career.

We are very community based with our thinking and treat patients with a holistic approach. We love to bring each team member's personality and passion into our clinic. Love running? Fantastic – we love running too. We have a force platform gait analysis system you can use to analyse your patients gait and prescribe custom 3D printed orthotics if required. Shoulders your speciality? No problem, we can ensure you get to develop your passion in this area.

WHAT YOU'LL GET FROM US

We're extremely passionate about building and maintaining a world-class culture and developing our team both personally and professionally, with a commitment to continuing professional development. We also offer flexible working arrangements that work for both you and the business.

WHAT WE NEED

We are looking for someone who enjoys life, loves people and has a fun and positive team spirit, as character is everything to us. Skills can always be taught, but personality can't. If you're fresh out of university, maybe feel undervalued in public health care or are looking for a new opportunity, then we can't wait to hear from you!

We have **full-time and part time positions available** with an attractive salary of £28,000 – £45,000 depending on your experience, **PLUS** performance related incentives. If the business is doing well due to your hard work, you deserve to be rewarded accordingly. If the business succeeds, you succeed.

If you're reading this and thinking "this job is for me!" then what's the hold up? Let's talk!

To apply, please send your CV and covering letter detailing why you think you would be a great fit to join our team, to nicky@chilternphysiotherapy.co.uk. You may also call our clinic for more information on 01923 283845.
